DETAILED ACTION

Allowable Subject Matter

1. Claims 1-4 are allowed.
2. The following is an examiner's statement of reasons for allowance: As applicant stated, the Takayama reference discloses delays used in a camera control circuit, but Takayama does not disclose the relation between the length of the electronic endoscope with the delay circuits. Thus, there is no motivation to combine the teachings of Eino and Takayama. Eino discloses an electronic endoscope apparatus. Takayama discloses an apparatus for endoscopic photography. Inaba discloses scintillation probe and intra-tube cavity insertable radioactive ray detecting apparatus. The prior art teachings of Eino, Takayama and Inaba, taken individually or in combination, does not specifically disclose, teach or suggest the limitation, "short-delay-time generation circuit for generating a signal having a delay time shorter than a reference delay time of the reference-delay-time generation circuit", used in combination with all of the other limitations of claim 1.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
